Impact - The Journal of The **Institute of Traffic Accident Investigators (ITAI)**

ISSN: 0959-4302

Erscheinungsweise: meist 3 x jährlich

Seit 2018 erhalten Mitglieder des EVU die **Zeitschrift** kostenlos im Rahmen der Mitgliedschaft.

 Dieser Artikel oder Abschnitt bedarf einer Überarbeitung. Hilf mit, ihn zu verbessern, und entferne anschließend diese Markierung.

2020

- Vol. 27 No 3 - Winter 2020
 - European Transport Safety Council: Case Study: Intelligent Speed Assistance on London Buses
 - Schmidt, M.: Non-Linear Optimization in Accident Analysis
 - Kortmann, A.; Hoger, T.: High Speed Pedestrian Collision and Verification of Car Collision Speed in Pedestrian Accidents Based on Biofidelic Dummy Injuries
 - Crowson, B.: Braking and Acceleration Calculations by Mental Arithmetic
 - Mikulec, R.; Tokař, S.; Semela, M.: Case Study: Single Vehicle Rollover Accidents
 - Senior, F.: NPCC Update: ISO 17020

2019

- Vol. 27 No 1 - Spring 2019
 - Kortmann, A.; Hoger, T.: A comparison of vehicle damage and longitudinal throwing distances when using biofidelic dummies, as opposed to conventional dummies
 - Oga, R.; Kato, K.; Terashima, T.; Takubo, N.; Ishii, A.: Accident reconstruction with data recorded by electronic control units in Toyota vehicles with a pre-collision system
 - Skicko, M.: Collision and crime scene surveying - are you ready for the new ISO / IEC standards?
 - Proctor-Parker, C.: International 'Human Factors' course - an appreciation
 - Advanced driver assistance systems (Direct Line and Brake Survey Report)

2018

- Vol. 26 No 2 - Autumn 2018
 - Sybydlo, B.: Toronto: Pedestrian Walking Velocity Study
 - Lowdon, N.: Vehicle System Forensics: The Infotainment Module
 - Kortmann, A.; Hoger, T.: Pedestrian Detection with Halogen, Xenon and LED Headlights: The Light Scattering Effect
 - Bathgate, A. J.: Front and Rear Bumpers as Fitted to Passenger Cars and Light Goods Vehicles
 - Aeron-Thomas, A.: Campaigning for Improved Collision Investigation
- Vol. 26 No 1 - Spring 2018
 - Weaver, M.: Assuming a coefficient of friction value (see also Vol. 26 No 2, p. 47)
 - Schmidt, M.: The art of reconstruction
 - Kortmann, A.: Comparing crash behaviours in crash tests - The new biofidelic dummy
 - Gooding, S.: Towards an Accident Investigation Branch for Roads?
 - Harrison, K.: Suicide on UK Roads - 'Lifting the Lid'
 - Ault, B. N.; Toomey, D. E.: Application of lateral pole impact force-displacement data to the reconstruction of side impacts with narrow objects

2017

2016

- Vol. 24 No 1 - Spring 2016
 - Worrell, M.: Analysis of Crash Test
 - Vertal, P.: Evaluation of the Effectiveness of Volvo's Pedestrian Detection System
 - Meinschein, G.: Low-cost 3D Digital Mapping and Modelling for Reconstruction
 - Editor: 'Impact' Cumulative Index of Volumes 1 - 23 (1991 - 2016)
 - Kuranowski, A.: Effects of High Voltage Electricity Acting on a Vehicle
 - Wach, W.: Probabilistic Interpretation of Ambiguous Results of Time-Distance Analysis
 - Fürbeth, U.: Centre of Gravity Position of Motor Vehicle
 - Abdullah, M.: Report from ITAI Sponsored Young Scientist

2015

- Vol. 23 No 3 - Winter 2015
 - Bowles, R.: Recording the Scene: How Advanced Technology is Changing the Way We Work
 - Richardson, S.; Josevski, N.; Sandvik, A.; Pok, T.; Orton, T.; Winter, B.; Wang, X.: Pedestrian Throw Distance: Impact Speed Contour Plots Using PC Crash
 - Kuranowski, A.: Unconventional Methods of Assessing Crash Velocities From Readings

Frozen on the Speedometers and Tachometers of Vehicles During Accidents

- Zebala, J.; Wach, W.; Ciepka, P.; Janczur, R.: Bypassing an Unexpected Obstacle Driving a Car with Zero Tyre Pressure in One and All Wheels
- Pflieger, E.: Viewing Behaviour as an Accident Cause
- Vol. 23 No 2 - Autumn 2015
 - Bartlett, W.; Meyers, D.: Time and Distance for a Motorcycle to Turn Away from an Obstacle
 - Guillaume, A.; Hermitte, T.; Herve, V.; Fricheteau, R.: Car or Ground: Which Causes More Pedestrian Injuries?
 - Spiller, K.: Digital Tachograph 4Hz Testing
 - Seidl, M.; Carroll, J.; Cuerden, R.: eCall: Defining Accident Conditions for Mandatory Triggering of Automatic Emergency Calls
 - Price, D.: Tyre Explosion Inside Vehicle Causes Fatality
- Vol. 23 No 1 - Spring 2015
 - Banks, P.: How Does the Advancement of Headlight Technology Improve Pedestrian Night Time Conspicuity?
 - Hollingsworth, M.: Can Skid Testing Using a Vehicle Fitted with ABS be used to obtain Coefficients of Friction that can be used for Calculations Within Collision Investigation?
 - Greatrix, G.: Creating Graphical Information from Vehicle Performance Data
 - Weaver, M.: Does the Fitting of Space Saver Tyres Affect the Braking Efficiency on Motor Vehicles?
 - Stevens, A.: Pedal Error: Driver's Reaction and Perception
 - Slark, A.: An Exploration to Find the Threshold Luminance Values Associated with the Detection of a Pedestrian at Night on an Unlit Road
 - Taylor, S.: Driving, Vision and the Impact of Age
 - Lolacher, T.: Canadian Association of Technical Accident Investigators and Reconstructionists (CATAIR)

2014

- Vol. 22 No 3 - Winter 2014
 - Imler, S.; Heller, M.; Raasch, C.; Watson, H.; Zhao, K.: The Effect of Rear Impact Collision Delta-V and Restraint Status on Injury Outcome
 - Gallo, M.: Pedestrian -v- Vehicle Collisions: A Michigan Outlook
 - Marsh, I.: An Evaluation of the Effect of Data Recorders in Reducing Police Vehicle Collisions
 - Marsh, I.: It's All a Matter of Degree
- Vol. 22 No 2 - Autumn 2014
 - Crouch, M.: Quantifying the Uncertainty in Skid to Stop Calculations
 - Crabtree, M.; Lodge, C.; Emmerson, P.: Pedestrian Walking Speed and Time to Cross Road

- Hulshof, W.; Knight, I.; Edwards, A.; Avery, M., Grover, C.: Autonomous Emergency Braking (AEBS) Test Results
- Keenan, J.; Littler, M.: Cycle Acceleration Trials at Bruntingthorpe in 2014
- Vol. 22 No 1 - Spring 2014
